

# FOLDABLE STEREOVIEW 3D 2.2

## 3D SILVER SCREEN

The **FOLDABLE STEREOVIEW** silver screen has the same unmatched durability and viewing characteristics as our standard 3D screen. The advantage of the foldable Stereoview 3D resides in the specially developed coating that allows the screen to be folded for transport. Smaller packaging reduces shipping costs and permits easier handling and delivery on the installation site. This screen is especially practical when access to the auditorium is limited.

TECHNICAL SPECIFICATIONS	
Gain	2.2 ( $\pm$ 5 % on-axis)
